About Me

I'm a front-end developer passionate about building clean, responsive, and visually refined interfaces. I enjoy bringing designs to life with precision and solving logical challenges. I'm now seeking my first professional role where I can contribute, learn, and grow as a developer.

Skills

- HTML, CSS, Sass, JavaScript
- React, Vite, React Router
- Git, GitHub, npm
- responsive design, pixel-perfect layouts, debugging, problem-solving

Projects

Custom Coding Color Theme — 2025

React app to create custom syntax color themes for CSS, HTML, and JS. Live preview, theme saving, and VS Code export.

Live Demo | Repo

Weather Widget — 2025

React-based weather widget with multi-city selection and responsive design.

Live Demo | Repo

BestShop — 2025

Responsive online-shop landing page with a working calculator for pricing packages. Built with HTML, Sass, and JavaScript.

Live Demo | Repo
